This germplasm is being freely distributed by the U.S. National Plant Germplasm System (NPGS) for educational, agricultural research or breeding purposes.

Items flagged ** have some form of intellectual property rights protection. Recipients are responsible for contacting the developer listed in the GRIN database regarding legal obligations. The material is supplied expressly conditional on acceptance of the terms of those obligations. The recipient's retention of the material constitutes such acceptance. MTA-CIMMYT - The germplasm was provided to the NPGS by the International Maize & Wheat Improvement Center (CIMMYT) where it is held in trust under the terms of an agreement with FAO. As per terms of the FAO-CIMMYT agreement, it was provided with the understanding that it is freely available for any agricultural research or breeding purposes. No recipient can claim ownership over the germplasm received or obtain Intellectual Property Rights on it or related information. Recipients may reproduce the material and distribute it to other parties provided they are also willing to accept the conditions of this agreement. The material is supplied expressly conditional on acceptance of the terms of the FAO-CIMMYT agreement. The recipient's retention of the material constitutes such acceptance. PVP - Plant Variety Protection - seed and tubers (issued by PVPO)

Seed available for distribution is a limited resource. The quantity of seed distributed is hopefully sufficient to conduct the intended research. If additional seed is required, the recipient is urged to grow and reproduce the seed. Repeated requests for seed of the same accession will not be honored. Thank you for your understanding.
